

WHY SHOULD I HIRE AN EVENT PLANNER?

- ❖ **We will save you valuable time.** With today's hectic lifestyles, you may not have the time to thoroughly explore and compare all of your many options when it comes to planning a successful and memorable event. Our professional coordinators are experienced in dealing with every aspect of your event, which will ultimately save you hours of research and time.

- ❖ **We can actually save you money.** Over the years, we have established close working relationships with many vendors. As a result, we receive discounts that are not available to private parties. We are also familiar with many vendors and their reputations and only recommend those who we know to be reliable and professional. This can help you to avoid costly mistakes.

- ❖ **We serve as a mediator between you and your vendors.** Dealing with many different vendors can be frustrating and time-consuming. We are trained in communicating with various vendors on your behalf and can work out compromises and conflicts to ensure that everyone is happy! This way, you only have to deal with one company...us!

- ❖ **We can alleviate your stress.** We handle all of the research, details, negotiations, communications, and organization so that you can simply relax and enjoy your event!
